

COOKIES POLICY

Cookies are small text files that are downloaded to your browser while using the internet. These files are used by web applications to help users navigate efficiently your pages so they can perform certain functions.

Our web application uses the concept of cookie to record basic information on the operation by the user in the process. The cookie is generated to start the process on our website and are deleted when you close your browser or expired session purchase.

We also use a cookie to Google to perform statistical analyzes. We use this cookie to monitor and evaluate the use of our website (such as using the browser, the number of new visitors, etc..). This helps us to determine possible changes to be made on this website to improve the service. In this process any data that identifies a person is not registered.

To ensure proper working of the web site, cookies must be enabled on your browser. If you have problems browsing the Internet, please visit the following links in order to learn how to enable cookies in your browser.
